

Student Conduct

At Rolling Hills School, we strive to provide a safe and caring environment for our students. In our everyday dealings with students, we remind them to be kind and respectful. We teach our students the skills needed to problem solve, and we help them understand why certain behaviours are unacceptable. Our junior high students are encouraged to model acceptable and appropriate behaviour for our younger students. When dealing with an incident, we take into account the circumstances and the student in order to determine appropriate consequences. All consequences are in accordance with district policy.
